FORESTRY PRODUCTS

CWS specializes in the design and manufacture of attachments that enhance the performance and productivity of heavy equipment, from the smallest backhoe to the largest dozer.

With product offerings from simple buckets to complex mining systems, CWS is your one-stop shop for attachments.

Our products are used extensively in forests and millyards around the world. These include:

Buckets

- Wheel loaders and excavators

Blades & Scoops

- Track and wheel dozers

Grapples

- Wheel loaders and excavators

Machine Conversions

- Excavators and wheel loaders
