CWS INDUSTRIES (MFG) CORP.

## MINING PRODUCTS

CWS specializes in the design and manufacture of attachments that enhance the performance and productivity of heavy equipment, from the smallest backhoe to the largest dozer. With product offerings from simple buckets to complex mining systems, CWS is your one-stop shop for attachments.

Our products are used extensively worldwide in soft and hard rock mining. These include:

**Buckets** - wheel loaders, excavators & shovels

**Cable Reeler Systems** - wheel loader/dozer & truck mounted

**Dozer Blades** - track or wheel dozers

**Tire Manipulators** - wheel loaders & fork lift trucks

**Quick Couplers** - wheel loaders & excavators

***“CWS attachments make your machine more machine”***

# BUCKETS

**Custom Buckets** for mining shovels and wheel loaders enables customers' options to optimize production to application. Collaborative selling with CWS and end users allows for maximum output and reduced downtime.

**Options:**

- Excavators
- Shovels
- Wheel Loaders

**Other Products:**

- Couplers
- Rippers
- Pin Pushers

# CABLE REELER SYSTEMS

**Cable Reeler Systems** speeds picking up and laying out of cable above ground and underground. The integrated Cable Reeler System eliminates complications in transferring cable from mobile carriers to inspection stations. Safety hazards are reduced by keeping the operator in the cab, even when changing reels. Cable damage is also reduced with better cable placement.

**Options:**

- Wheel Loader or Dozer Mount
- Cable Lay-out Boom
- Grapple

**Other Products:**

- Truck Mounted
- Cable Repair Stations

# DOZER BLADES

**Dozer Blades** designed to customer requirements allows for big gains in productivity. Load carry and wear requirements are custom designed for specific applications.

**Options:**

- Track Dozers
- Wheel Dozers

**Other Products:**

- U-Blades
- Semi-U Blades
- S-Blades
- Angle Blades
- Reclamation Blades

# TIRE MANIPULATORS

**Tire Manipulators** - respected, known and used in mines on four continents. Available in seven standard capacities:

- TM 5 - 5,000 lbs
- TM 10 - 10,000 lbs
- TM 15 - 15,000 lbs
- TM 20 - 20,000 lbs
- TM 25 - 25,000 lbs
- TM 30 - 30,000 lbs
- TM 35 - 35,000 lbs

**Options:**

- Forklift Truck or Wheel Loader Mounted
- Rotation - Cylinder, Planetary Gear & Worm Drive
- Integral Side Shift
- Switch or Proportional Control c/w safety switch
- Loading Holding Mechanism
- Rim/Tire Handling Pads
