CWS INDUSTRIES (MFG) CORP.

MINING PRODUCTS

CWS specializes in the design and manufacture of attachments that enhance the performance and productivity of heavy equipment, from the smallest backhoe to the largest dozer. With product offerings from simple buckets to complex mining systems, CWS is your one-stop shop for attachments.

Our products are used extensively worldwide in soft and hard rock mining. These include:

Buckets - wheel loaders, excavators & shovels

Cable Reeler Systems - wheel loader/dozer & truck mounted

Dozer Blades - track or wheel dozers

Tire Manipulators - wheel loaders & fork lift trucks

Quick Couplers - wheel loaders & excavators

BUCKETS

Custom Buckets for mining shovels and wheel loaders enables customers' options to optimize production to application. Collaborative selling with CWS and end users allows for maximum output and reduced downtime.

Options:

- Excavators
- Shovels
- Wheel Loaders

Other Products:

- Couplers
- Rippers
- Pin Pushers

CABLE REELER SYSTEMS

Cable Reeler Systems speeds picking up and laying out of cable above ground and underground. The integrated Cable Reeler System eliminates complications in transferring cable from mobile carriers to inspection stations. Safety hazards are reduced by keeping the operator in the cab, even when changing reels. Cable damage is also reduced with better cable placement.

Options:

- Wheel Loader or Dozer Mount
- Truck Mounted
- Cable Lay-out Boom

Other Products:

- Grapple
- Cable Repair Stations

DOZER BLADES

Dozer Blades designed to customer requirements allows for big gains in productivity. Load carry and wear requirements are custom designed for specific applications.

Options:

- Track Dozers
- Wheel Dozers
- GET & Liner Packages

Other Products:

- U-Blades
- Semi-U Blades
- S-Blades
- Angle Blades
- Reclamation Blades

TIRE MANIPULATORS

Tire Manipulators - respected, known and used in mines on four continents. Available in seven standard capacities:

- TM 5 - 5,000 lbs
- TM 10 - 10,000 lbs
- TM 20 - 20,000 lbs
- TM 30 - 30,000 lbs
- TM 35 - 35,000 lbs

Safety Features:

- Fall Arrest Arms (roll back protection)
- Load Holding Valves

Options:

- Fork Truck or Wheel Loader Mounted
- Radio Remote Controls
- Integral Side Shift
- Switch of Proportional Controls with safety switch
- Rim Component Handling Pads
