BIG DEMANDS, SMART SOLUTIONS

Leaders in Custom Attachment Design for Heavy Equipment since 1963

LEAP - Large Excavator Attachment Program

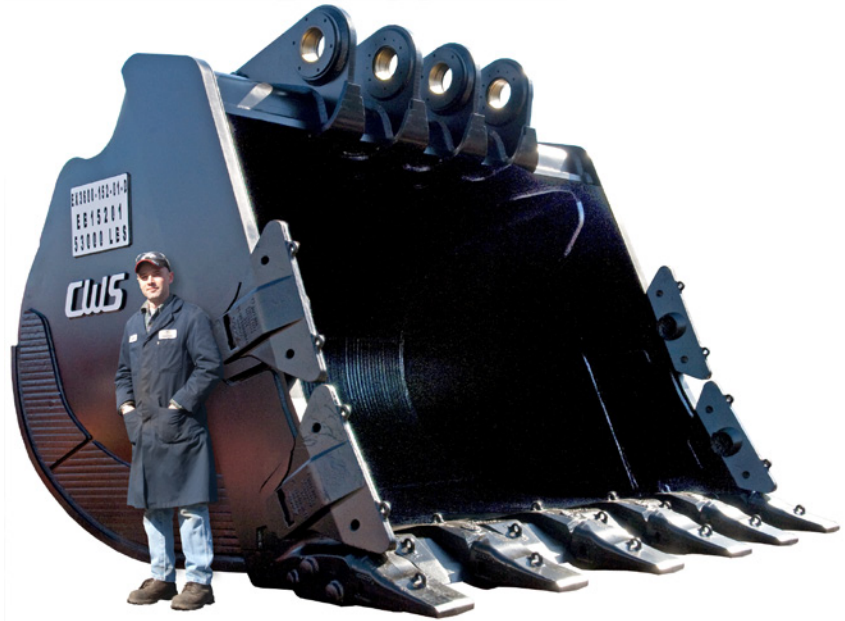

CWS Industries has been manufacturing buckets and other mining attachments for over 45 years. In 2007, we made the decision to develop L.E.A.P. - Large Excavator Attachment Program, and have never looked back.

L.E.A.P. offers solutions to your production mining applications. We now cover the full range of hydraulic shovels from 120 ton to 800 ton machines.

We design and manufacture the attachments to your machine's performance and specific application. Collaborative design works for you.

Many customers are taking the LEAP and they are glad they did. **Are you getting the most from your machine?**
